Sih-Sian Lin

(208) - 206-6148 | lin24024@byui.edu

EDUCATION

Bachelor of Science in Biochemistry Sep 2024 - Sep 2028

Brigham Young University - Idaho *Rexburg, Idaho*

- GPA : 3.99 / 4.0
- Major in Biochemistry
- Minor in Web development
- Relevant coursework: General Chemistry, General Biology, Organic Chemistry, Quantitative Analysis, Biochemistry, Calculus, and Physics

WORK EXPERIENCE

Laboratory Teaching Assistant Sep 2025 - Present

Brigham Young University-Idaho, Department of Chemistry *Rexburg, Idaho*

- Led hands-on chemistry laboratory sessions for 35–40 undergraduates, preparing experimental reagents, calibrating instrumentation, and reinforcing sterile laboratory techniques
- Supervised lab safety and hazardous-chemical disposal protocols across 4 weekly sections, maintaining 100% incident-free compliance
- Graded 35+ weekly lab reports within a 48-hour turnaround, providing feedback to improve student writing

Online Teaching Assistant Jan 2025 - Present

Brigham Young University - Idaho *Rexburg, Idaho*

- Coordinated 30+ students in an online learning environment by teaching material, answering questions, clarifying concepts, and guiding problem-solving strategies
- Delivered detailed, rubric-based feedback on 100+ assignments per term, supporting student retention and measurable mastery of core concepts
- Resolved 15+ student academic inquiries weekly via discussion boards and email within 24 hours, bridging instructional gaps across remote cohorts

SKILLS

- Titration & Volumetric: Acid-base and complexometric titration; buret and micropipette calibration
- Gravimetric & Statistics: Gravimetric analysis; uncertainty and statistical analysis
- Calibration: External calibration, standard addition, calibration curves
- Spectroscopy: UV-Vis and micro-volume spectrophotometry; IR, ^{1}H NMR, ^{13}C NMR interpretation
- Sample Preparation: Solution preparation, serial dilution, pH measurement, buffer preparation
- Organic Synthesis: Reflux, liquid-liquid extraction, recrystallization, distillation, vacuum filtration
- Separation & Identification: TLC, column chromatography, melting-point determination
- Biochemical Techniques: Centrifugation, gel electrophoresis, PCR, protein assays
- Documentation: Laboratory notebook and report writing; data analysis in Excel and Python
- Programming: HTML/CSS, JavaScript, Python
- Software: Excel, Word, PowerPoint, InDesign, Illustrator, Photoshop
- Languages: Chinese (native); English (professional proficiency)
- Professional Strengths: Time management, self-discipline, communication, attention to detail
